

City of Menlo Park Facebook Campus Project (West Campus)

The City of Menlo Park is reviewing a request from Facebook for land use entitlements associated with the West Campus component of the Facebook Campus Project. The proposed project includes redevelopment of an approximately 22-acre site located at the intersection of Willow Road and Bayfront Expressway, currently addressed 312 and 313 Constitution Drive. As part of the project, all existing site improvements would be removed and an approximately 433,555-square-foot building would be constructed on top of surface parking that would include approximately 1,540 parking spaces. Upcoming meetings related to the Facebook West Campus project are listed in the box to the right. Extensive information regarding the project is available for review at the Library, Community Development Department, and City website.

Please visit the project page for more information, to view the project plans, and to sign up for the email list to be notified of updates: http://www.menlopark.org/projects/comdev_fb.htm. For more information, please contact Rachel Grossman at rmgrossman@menlopark.org or 650-330-6737.
