

## MENLO PARK MUNICIPAL WATER DISTRICT

701 Laurel St / Menlo Park, CA 94025  
(650) 330-6786 / Fax (650) 327-1953

June 15, 2010

Dear Customer,

For your convenience, Menlo Park Municipal Water District (MPMWD) has compiled a list of AWWA- certified backflow assembly testers that have registered with us and are authorized to perform work within our jurisdiction. **Only those certified testers on this list are eligible to test your backflow prevention assembly(ies).** MPMWD does not recommend or endorse any particular individual or company listed.

The tester must do the following

- Notify you if your backflow prevention assembly is not installed properly per MPMWD standards and requirements,
- Purchase a Backflow History Tag from MPMWD (located at 333 Burgess Dr),
- Attach the Tag to the tested assembly, if one is not already attached or if the existing one is expired.
- Submit the test report to MPMWD within ten (10) days of testing the assembly

If the assembly has failed the test, you are responsible to ensure that the assembly is repaired or replaced and re-tested within 30 days of the test notice.
